New Holland President's Club: Your Assurance of Superior Service

Delta Power Equipment in Mitchell, St. Marys, St. Thomas, Tavistock, Tilbury and Watford have been named to New Holland's exclusive President's Club, the highest honor New Holland bestows on a dealership. The award recognizes superior service to customers as well as excellence and continuous improvement in business performance.

"By earning this award, Delta Power Equipment has met New Holland's highest standards for dealerships, an assurance to customers of excellence in business practices," says Bret Lieberman, New Holland Vice President, North America. "President's Club award winners have worked very hard to deliver exceptional service and support to their customers. We're very proud to present this type of recognition to the best of the best."

President's Club Award winners have achieved the highest levels of excellence in facilities, business management, sales, parts, service support and customer satisfaction. Only 94 dealerships throughout North America achieved this distinction in 2015.

This is your assurance of superior service.
